## Shimco to Exhibit at the Japan International Aerospace Exhibition 2012

*The Company is a Featured Partner in the Canada Pavilion - October 9 through 14, 2012*

**MARKHAM, Ontario** (October 2, 2012) – Shimco announced today their participation in the Japan International Aerospace Exhibition (JA2012) taking place in Nagoya, Japan from October 9 through 14, 2012.

JA2012 is held in Nagoya, Japan, Asia's largest aerospace industrial manufacturing region, and brings together international and domestic companies to promote trade and further the development of aerospace-related industries. JA2012 is also presented to raise the general public's understanding of the improvements that aerospace engineering brings to daily life.

Shimco, a leader in manufacturing precision parts, laminated and edge-bond shims, tapers and spacers has served the aerospace, defense and space industries world-wide for over 25 years. Shimco is already a supplier to several Japanese aerospace companies and is excited to be featured in the Canada Pavilion as a key player in Ontario's vibrant aerospace industry.

Example of Custom Laminated Parts in Titanium and Aluminum

"We are honoured to be invited to display in the Canada Pavilion as one of the companies selected to represent the province of Ontario at this international event," states Peter Voss, President of Shimco. "This is an exceptional opportunity for us to show how Canada is leading the way in the aerospace industry and for Shimco to promote its innovative products to the international market."

The Canada Pavilion features displays and companies from the provinces of Ontario, Quebec and British Columbia. JA2012, now in its 13th year, has over 500 exhibitors from 22 countries, and is expected to attract over 50,000 attendees during this five-day event.
